| My experience has given me the ability to understand and interpret a client's brief , their intentions as well as their target audience and formulating a response to that is the key to delivering an outstanding product. | | | Portfolio |
| I have a proven track record of taking their brief and applying my creative idea, narrative and storyboard to ensure my proposal is compelling and engages with the audience. My skill in graphic design and typography help to deliver exceptional visuals to make it interesting while matching the mood and tone that the video is supposed to elicit. My experience also extends to music selection and editing to enhance the visual presentation. | | | www.quanatwork.com |
